

Cloudpaging Server & Enterprise Portal 9.3.1 Release Notes

Date: March 12, 2020

Server Version: 9.3.1.29235

Package Contents

Documentation\Cloudpaging Server Admin Guide.pdf

Documentation\Cloudpaging Web Portal Integration.pdf

Documentation\Cloudpaging Server Supplemental Guide for Enterprise Portal.pdf

Server-Windows\Application Jukebox Server.exe

Server-Windows\ISSetupPrerequisites

Server-Windows\Database

Version Compatibility

The 9.3.1 Cloudpaging Server is compatible with the 8.9.4 and newer Player versions.

Appsets packaged with Cloudpaging Studio version 8.8.x and higher are supported on the 9.3.1 Cloudpaging Server.

IMPORTANT

The Enterprise Portal customers should ensure that the token renewal URL is set to use HTTPS. A security enhancement was made in this release to redirect the Enterprise Portal to HTTPS automatically. Cloudpaging Player will encounter an error if the token renewal URL is set to use HTTP.

This only applies to the Enterprise Portal. No changes are required for customers that only use Cloudpaging Server.

Upgrade

Please read the accompanying upgrade guide for full instructions if upgrading from a previous version of the Cloudpaging Server or Enterprise Portal.

Resolved Issues

Here's what we improved in this release.

Issue Type	Description	Ticket Number
Enhancement	Re-enable Cloudpaging CDN option in the Enterprise Portal's web service configuration.	CS-345
Enhancement	The Enterprise Portal should redirect to HTTPS if users attempt to access it with HTTP.  Enterprise Portal customers, please ensure that the token renewal URL is set to HTTPS.	CS-904
Enhancement	Improved some of the error messages displayed in the UI of the Enterprise Portal to assist administrators with troubleshooting.	CS-53, CS-67, CS-419, CS-907, CS-908
Enhancement	Improve security mechanisms in the Enterprise Portal.	CS-342
Enhancement	The column 'Reserved Seats' in the License Statistics report in the Cloudpaging Server has now been renamed to 'Sessions'.	CS-906
Bug	Incorrect database version is displayed in the Cloudpaging Server's UI after installation.	CS-885
Bug	Performance of the Cloudpaging Server may be affected if its IP address is changed.	CS-891
Bug	Application descriptions may not be formatted correctly in the Launch Applications page.	CS-449
Bug	The Enterprise Portal's log messages are not recorded in UTC time zone.	CS-36
