

# Cloudpaging Server & Enterprise Portal 9.7.3 Release Notes

**Date:** March 13, 2024

**Server Version:** 9.7.3.1524.e112f748

---

## Package Contents

Documentation\Cloudpaging Server Admin Guide.pdf

Documentation\Cloudpaging Server Supplemental Guide for Enterprise Portal.pdf

Documentation\Cloudpaging Server Supplemental Guide for Web Portal Integration.pdf

Server-Windows\Application Jukebox Server.exe

Server-Windows\ISSetupPrerequisites

Server-Windows\Database

## Version Compatibility

The 9.7.3 Cloudpaging Server and Enterprise Portal are compatible with the 9.2.0 and newer Cloudpaging Player versions.

Appsets packaged with Cloudpaging Studio version 8.8.x and higher are supported on the 9.7.3 Cloudpaging Server.

## Upgrade

Please read the accompanying upgrade guide for important information and full instructions if upgrading from a previous version of the Cloudpaging Server or Enterprise Portal.

---

## Enhancements

Here are some enhancements implemented in this release.

Issue Type	Description	Ticket Number
Enhancement	Added the "Valid-To" (product key expiration) date and time to the Admin Portal's Product Key page.	CS-5054
Enhancement	Improved the timing of the product key expiration so usage continues until the end of the expiration day instead of stopping on the end of the previous day. Product key expiration will now occur at 12:00am (00:00 UTC), the beginning of the day <u>after</u> the date listed under the Product Key's "Valid-To" date. Previously, product key expiration would occur at 12:00am (00:00 UTC), the beginning of the day as listed under the Product Key's "Valid-To" date.	CS-5049

## Bugs

Here are some defects we squashed in this release.

Issue Type	Description	Ticket Number
Bug	Fixed an issue with unexpected cases where a session cannot be expired during session cleanup due to an error when attempting to create a usage record for a previously deleted application.	CS-5052 <b>38702</b>

## Open Source Disclosure

Numecent's Cloudpaging products use open source software licensed to Numecent for use and redistribution under an open source license. To better inform Numecent customers on what open source code is included within Cloudpaging products, please see this [support article](#) to learn more.
